Student Accounting
Orientation 2017
Welcome!

Student Accounting assists campus faculty, staff, and students in meeting their teaching, research, and operational needs by providing the most effective and efficient disbursement of student financial aid. Additionally, effective and efficient maintenance and collection of student loans and campus receivables, and communication methods are employed for effective interaction with various funding agencies.

Avoid Identity Theft

Identity theft happens when someone steals your personal information and uses it without your permission. It's a serious crime that can wreak havoc with your finances, credit history, and reputation — and can take time, money, and patience to resolve. [Read more.]

Important Information

Summer Session I and Special Session fees and tuition have been assessed and all unauthorized aid will be credited to your account. This appears as Estimated Financial Aid on your statement and will be applied to your outstanding balance even though financial aid will not disburse until June 12, 2013. If you have an Amount Due, you must pay that amount by the Fee Payment Deadline, June 12, 2013 to avoid being dropped. [Read more.]
