Presentation Goals

To inform you about …

- the fire prevention training and education services that we provide
- the fire protection features in our buildings
- a few key fire prevention tips that will help prevent fires
Fire Prevention services

- fire extinguisher training
- dormitory fire drills (annually)
- emergency planning consultation
- fire safety inspections (bi-annually)
- fire investigations (as needed)
Life safety systems...

UC Davis dormitories are equipped with automatic sprinkler systems and fire alarm systems! These systems include:

- smoke/heat alarms inside the dorm rooms and in the common hallways
- manual pull stations at the EXIT doors
- horns/strobes to notify residents to evacuate the building
- sprinklers throughout the building

All dormitories also have fire extinguishers in the corridors and common areas.
Safety “Prevention Pointers”…

- NEVER use candles! They are prohibited on all University property.

- NEVER leave cooking unattended! (Popcorn takes 2 minutes – not 20!)

- Plan escape routes. ALWAYS know two ways out!

- Take fire alarms seriously.

- Take responsibility for prevention.
Fire history in student housing...

In closing …

REMEMBER – FIRE IS EVERYONE’S FIGHT!

Students - be responsible for your own safety and that of your roommates and evacuate promptly if the fire alarm activates.

Parents - we strive to ensure that your student will have a safe and happy first year at UC Davis!
